

Nudist Research Library Consortium

Nudist Research Library Consortium is a cooperative agreement between four independent American research libraries with the shared mission of preserving and archiving the history of social nudism. The goal of the consortium is to improve access by digitizing research material and sharing information.

American Nudist Research Library (ANRL) was founded in 1979. More than 40 years of preserving nudist history has resulted in strong collections of national and foreign magazines, club newsletters, ASA/AANR documents, Who's Who files, and videos. All magazines and newsletters have been electronically scanned; digitization continues on the rest of the collection.

ANRL is an independent 501(c)3 non-profit corporation on the grounds of Cypress Cove Resort. Annual and life memberships are available.

NEF is a 501(c)3 non-profit charitable organization. Library registration and services are free of charge.
